

Shivaji University, Kolhapur
Question Bank For Mar 2022 (Summer) Examination

Subject Code: 8198 Subject Name: Advanced java

Q.1 Select correct alternative and rewrite the statement [8]

1. SWING components are_____.
 - a. Platform dependent
 - b. heavy weight
 - c. Platform independent
 - d. both A & B

2. Which tag is used to execute java source code in JSP?
 - a. Declaration tag
 - b. Scriptlet tag
 - c. Expression tag
 - d. HTML tag

3. Which of the following is not a JSP tag ?
 - a. Declaration tag
 - b. Scriptlet tag
 - c. Expression tag
 - d. HTML tag

4. _____ are the methods of servlet class.
 - a. init()
 - b. destroy()
 - c. service()
 - d. All of these

5. Swing classes are present in _____.
 - a. javax.swing
 - b. java.awt
 - c. java.swing
 - d. java.net

6. _____ is a software component that enables java application to interact with the database.
 - a. JDBC driver

- b. JDBC Connection interface
 - c. JDBC Statement interface
 - d. JDBC Resultset interface
7. Which of the following listener interfaces are used in SWING for event handling.
- a. ActionListener
 - b. KeyListener
 - c. MouseListener
 - d. All of these
8. Which method of DriverManager class is used to establish a connection between java application and database?
- a. setConnection()
 - b. connect()
 - c. getConnection()
 - d. none of these
9. Syntax of jsp expression tag is_____
- a. <% %>
 - b. <%= %>
 - c. <!% !>
 - d. <# #>
10. _____ resides on server side.
- a. cookies
 - b. web page
 - c. servlet
 - d. All of these
11. Which of the following are JSP life cycle methods?
- a. jspInit()
 - b. _jspService()
 - c. jspDestroy()
 - d. All of these
12. Which of these are components of swing?
- a. JButton
 - b. JTextField
 - c. JList

d. All of these

13. Which interface provides methods to execute queries with the database?

- a. Statement
- b. ResultSet
- c. Connection
- d. None of these

14. JDBC stands for?

- a. Java Data Connection
- b. Java Database Connection
- c. Java Database Connectivity
- d. Java Database Control

15. The _____ interface handles Mouse events.

- a. MouseListener
- b. ItemListener
- c. ActionListener
- d. KeyListener

16. In Java, events are the activities that occur between:

- a. The user
- b. The application
- c. Both A & B
- d. None of these

17. Which method is called only once in Servlet life cycle?

- a. init()
- b. service()
- c. destroy()
- d. exit()

18. Servlet runs each request in a _____.

- a. web container
- b. separate thread
- c. JVM
- d. server

19. Cookies are stored on _____ side.

- a. server
- b. client
- c. Both A & B
- d. none of these

20. Which of the following is not a directive in JSP?

- a. UseBean
- b. include
- c. page
- d. export

21. The _____ method of Connection interface is used to create statement.

- a. createStatement()
- b. getStatement()
- c. Statement()
- d. None of these

22. In Swing, _____ class is used to display data in tabular form.

- a. JList
- b. JMenu
- c. JTable
- d. JTextArea

23. A _____ is a small piece of information that is persisted between the multiple client requests.

- a. Servlet
- b. Table
- c. cookie
- d. URL

24. Which of the following package is used in JDBC programming?

- a. java.io
- b. javax.swing
- c. java.net
- d. java.sql

25. _____ are session tracking techniques.

- a. URL rewriting

- b. Hidden Form Field
- c. Cookies
- d. All of these

26. Which is passive swing control that do not support any interaction with the user?

- a. JChoice
- b. JLabel
- c. JList
- d. JButton

27. Which http method send by browser that asks the server to get the page only?

- a. get
- b. put
- c. post
- d. option

28. Which is a correct statement about Swing?

- a. It is light weight
- b. It supports pluggable look and feel
- c. It follows MVC architecture
- d. All the above

29. JSP stands for?

- a. Java server Pages
- b. Java sequence pages
- c. Java standard Pages
- d. None of these

30. Which of the following method of Statement interface is used to execute SELECT query.

- a. executeUpdate()
- b. execute()
- c. executeStmt()
- d. executeCon()

31. Which method is used to add components in a particular layout on container?

- a. add()

- b. **setLayout()**
- c. addLayout()
- d. None of these

32. Which of the following interface is used to execute parameterized queries?

- a. Statement interface
- b. **PreparedStatement**
- c. ResultSet interface
- d. CallableStatement

33. _____ is a Java API to connect and execute the query with the database.

- a. Swing
- b. Collection
- c. **JDBC**
- d. None of these

34. Change in the state of an object is known as _____ .

- a. **Event**
- b. listener
- c. Layout
- d. application

35. _____ are removed each time when user closes the browser.

- a. persistent cookies
- b. **Non-persistent cookies**
- c. Both A & B
- d. None of these

36. Syntax of jsp declaration tag is _____

- a. `<% %>`
- b. `<%= %>`
- c. **`<%! %>`**
- d. `<# #>`

37. Syntax of jsp scriptlet tag is _____

- a. **`<% %>`**
- b. `<%= %>`

- c. <%! %>
- d. <# #>

38. Method _____ class object is get called when button is clicked.

- a. MouseEvent
- b. KeyEvent
- c. ItemEvent
- d. **ActionEvent**

39. The _____ control represents a top level window with a border and a title used to take some form of input from the user.

- a. **JFrame**
- b. JDialog
- c. JPanel
- d. Window

40. The _____ class is used to display the tree structured data or hierarchical data.

- a. JTable
- b. JMenu
- c. **JTree**
- d. JSlider

Q.2) Attempt any two of the following.

[16]

1. Explain different JDBC drivers in detail.
2. Explain Connection, Statement and ResultSet interfaces of JDBC API.
3. What is JDBC? Explain JDBC connection steps with simple example.
4. Explain Java Database Connectivity with MySQL.
5. Explain any four components of swing.
6. Explain JFrame and JPanel class with example.
7. What is LayoutManager? Explain BorderLayout class with example.
8. What is LayoutManager? Explain GridLayout class with example.
9. Explain ActionListener and ItemListener interface with example.
10. Explain MouseListener and MouseMotion Listener interface with example.
11. What is Event handling? Explain KeyListener interface with example.
12. What is JSP? Explain different scripting elements of JSP.
13. Explain any four JSP implicit objects.
14. Explain JSP directive elements.
15. Explain Session tracking technique in servlet.

Q.3) Attempt any four of the following.

[16]

1. Explain JDBC connection steps.
2. Explain Statement interface of JDBC API.
3. Explain ResultSet interface of JDBC API.
4. Write short note on Connection interface with example.
5. Write short note on MouseListener interface with example.
6. Write short note on KeyListener interface with example.
7. Write short note on ItemListener interface with example.
8. Write short note on ActionListener interface with example.
9. Explain JOptionPane component of swing.
10. Define the terms: 1) Event 2) Source 3) Listener 4) Event Handling
11. Write short note on LayoutManager class.
12. Write short note on FlowLayout class.
13. Explain two swing components: JList and JComboBox.
14. Explain JCheckBox and JRadioButton in brief.
15. Explain lifecycle of JSP.
16. Explain three different JSP tags.
17. Explain different JSP directive elements.
18. Write short note on cookies.
19. What is cookie? Explain two types of cookies.
20. Differentiate between doGet() and doPost()
21. Explain life cycle of Servlet.
22. Differentiate between Servlet and JSP.

23. Explain use of following methods

- i. setTitle()
- ii. setSize()
- iii. setVisible()
- iv. setLayout()

24. Explain JMenuBar, JMenu and JMenuItem components in brief.

25. Explain GridLayout class with example.

26. Explain BorderLayout class with example.

27. Write short note on JSP.

28. Write short note on servlet.

29. Explain session management using HttpSession.

30. Explain session management using URLRewriting.
